

OFS to Present Series of Sessions at Fiber Connect Conference

Nashville, TN, Fiber Connect, Booth #309, July 22, 2021 - OFS, a leading manufacturer of innovative fiber optic products and solutions will showcase continued technical and industry leadership in two highly rated educational sessions at the annual Fiber Connect Conference to be held at the Gaylord Opryland, Nashville, Tennessee from July 25th – 28th, 2021.

OFS Applications Engineering Manager Mark Boxer and Professional Services Manager Jeff Bush will present “FTTH Basics and Network Design” as part of the “Fiber Broadband Starter Kit” on Sunday, July 25th from 12:35PM – 1:20PM.

The goal of this session is to examine the drivers behind the insatiable demand for bandwidth and the role of fiber in today’s network. Join your colleagues and learn about the different components of a typical fiber to the home network, installation techniques and trade-offs for different network architectures.

John George, Senior Director of Solutions and Professional Services for OFS, will moderate the panel “Case Studies in MDU Strategies and Successes” together with Bill Clark, Manager, EPB Chattanooga Fiber Optics, and Greg Knight, Vice President, Infrastructure, Snip Internet, on Monday, July 26th from 12:30PM – 1:20PM.

This session will discuss how the growth in optical fiber to Multiple Dwelling Units and Multiple Tenant Units offer both challenges and opportunities to service providers. Residents and owners of apartments, condominiums, and businesses want the benefits of fiber connections to each unit now more than ever. Participants in this session will learn from a panel of experienced experts how they deployed fiber into the living unit cost effectively, the challenges they faced, and how they met the challenges to produce a successful deployment.

Additionally, on Monday afternoon, John George will present “Building a Better Fiber Foundation for FTTH” from 4:00 – 4:20PM. Fiber to the Home can enable a superior customer experience and great returns for service providers. The right fiber infrastructure for FTTH is configured based

on each service provider's needs and capabilities to be cost effective while enabling faster time to revenue. This presentation will review the latest high density, low visibility, low labor optical cabling solutions that can improve FTTH ROI for upcoming deployments.

For further detail on all of the presentations and sessions by OFS please visit the [Fiber Connect website](#). For more information on these and other OFS products, stop by the OFS booth #309 or visit www.ofsoptics.com.

About OFS

OFS is a world-leading designer, manufacturer and provider of optical fiber, fiber optic cable, connectivity, fiber-to-the-subscriber (FTTx) and specialty fiber optic products. We put our development and manufacturing resources to work creating solutions for applications in such areas as telecommunications, medicine, industrial automation, sensing, aerospace, defense and energy. We provide reliable, cost-effective fiber optic solutions that help our customers meet the needs of consumers and businesses today and into the future.

Headquartered in Norcross (near Atlanta) Georgia, U.S.A., OFS is a global provider with facilities in China, Denmark, Germany, Morocco, Russia and the United States. OFS is part of Furukawa Electric Company, a multi-billion dollar leader in optical communications.
