

### FEATURED BENEFITS OF OUR FITEL NINJA SPLICER

**Enhanced Ease of Use** - The NJ001 features a proportionately wide splicing chamber for easier fiber loading. When compared with the S123C unit, the NJ001 offers 400% more space around the fiber holders, making this one of the most user friendly splicers available.

**Improved Visibility** - Three LED lights illuminate the entire splicing chamber with more than 300 Lux. This light intensity improves visibility, making it easier to perform work in low-light environments. In addition, the light on the V-groove is 600% brighter than that of the S123C unit.

**Industry-First Detachable V-Groove** - The NJ001's V-groove is detachable for easy cleaning and optimal maintenance.

### EZ!FUSE SPLICE ON CONNECTORS

Splice On Connectors allow for easy termination and flexibility in the field. The "splice-on" connector (SOC) eliminates the need for field polishing and significantly improves the quality of the termination and installation time required. The connector is easily assembled by using a process that requires minimal skill or training.

These connectors are optimal for use in FTTx application. Both UPC and APC polishing are available for single-mode fiber. EZ!Fuse Splice On Connector is compatible with the FITEL Fusion Splicers models Ninja, S179, S178 and the EZ-Terminator™.

Product Code	Description
FSOC-SC09-SM-U	SC connector, SM UPC polishing for 250/900µm fiber
FSOC-SC23-SM-U	SC connector, SM UPC polishing for 2/3mm cordage
FSOC-SC09-SM-A	SC connector, SM APC polishing for 250/900µm fiber
FSOC-SC23-SM-A	SC connector, SM APC polishing for 2/3mm cordage

### STANDARD FTTH FS KIT

#### NINJA Handheld Fusion Kit

P/N: NJ001-3-EX-900-V1

#### VALUE KIT CONTAINS:

- NJ001-3 Splicer main body
- HCC-09 Hard carrying case
- S712S-250 250 µm Fiber holders
- S712S-900 900 µm Fiber holders
- S946 Battery (Installed)
- S978A AC Adapter for Fusion Splicer
- ELR-01 Electrodes
- D5111 Electrode cleaning kit
- VGC-01 V-groove cleaning brush
- S211B Fiber optic stripper
- S326A Precision cleaver
- FPF-01 Fiber prep fluid
- FW-01 Fiber wipes

### INVISILIGHT® SPECIFIC FTTH TERM KITS

#### NJ001 InvisiLight Termination Kit

P/N: NJ001-3-INV-KIT

#### PACKAGE INCLUDES:

- NJ001-3 Splicer main body with heater
- S211B Fiber optic stripper
- S326A Hand-held precision cleaver
- S712S-900 900 µm Fiber holders (pair)
- S712S-250 250 µm Fiber holders (pair)
- S978A AC Adapter and cord
- ELR-01 Spare electrodes (1 pair)
- D5111 Electrode cleaning disk
- FPF-01 Fiber prep fluid
- FW-01 Fiber wipes
- V-Groove cleaning brush
- Manual
- SCC-01 Soft carrying case
- S712C-FSOC1-L Cordage holder
- EZT-01 Cordage slit/ring tool

#### NJ001 InvisiLight Term Kit with 10/20/ 50 Packs of Any Type of EZ!Fuse®

P/N: NJ001-3-INV-KIT PLUS XX

#### PACKAGE INCLUDES:

- Above plus 10/20/50
- Packs of Any Type of EZ!Fuse
- XX/X: Type Selectable
